A MEMORABLE MORNING. "That was a morning that the people of southern Illinois will never forget. At the hour appointed a wagon was drawn up in the public square, from which the general addressed a vast audience. There were those present who had sworn to take his life if he declared for the Union, but, at the conclusion of his speech, he quietly got down from the wagon and then and there enlisted one hundred and ten men for the first company of the regiment which he proposed to raise in defense of the Union. There happened to be present a fifer and drummer who had served in the Mexican war, and these sturdy old veterans furnished the music. Captain Looney was chosen to command the company, and the general, reing him a commission as colonel and asking him to raise a regiment in his district, resigned his seat in Congress,-the first Representative to do so .- accepted the governor's offer, and, within the next ten days, succeeded in enlisting a

General Logan's boys never forgot her kind-

ness and thoughtfulness on that occasion. "Mrs. Logan remained at Cairo until the embarkation of the troops, and from that city heard the cannonading at Belmont, in November. In January, 1862, she returned to Marion, but after the battle of Fort Donelson, where the general was wounded, she joined him on board the Uncle Sam, then lying in the Tennessee River, and afterwards had him removed to a neighboring house which had been appropriated for hospital headquarters, where she tenderly nurshed him until he was able to rejoin his command, which he did on April 7, reaching the field of Shiloh on the evening of the second day's battle. Mrs. Logan again followed him, but upon the movement of the army on Corinth returned home. The February following (1863) she saw him again at Memphis, where she also ministered to the sick and wounded in the hospital. She was particular to look after the comfort of the boys of her hu-band's regiment, who were, as she has often told me, every one of them 'fit to be invited to any gentleman's house.' But the time came when the troops were ordered off to Vicksburg, and she once more returned to Marion.

A DECLARATION OF INDEPENDENCE "So bitter had become the feelings of the war. For a long time she had no one to help her except a young lady who has since become to be seen. It was the wife of General Pearson, and these two, I know, used to personally take care of the six or seven head of horses that she had brought from Marion. At last she picked up an old celored man—a refugee—and was promptly notified by her robel neighbors that if she did three years ago.

At its close, however, in the autumn of 1864, he was needed at home to rally our faint-hearted citizens to the support of President Lincoln, and husband and wife were once more united. When the general again took the field it was to find his command at Savannah, at the conclusion of its famous 'March to the Sea.' The Confederacy was then on the eve of dissolution, and soon the fall of Richmond and the surrender of Lee were followed by the capitulation of Johnston and the general dispersion of the Confederate armies. Women shall not be entitled to vote in Utah. All laws conferring rights of inheritance on illegitimate children are annulled. Prosecutions for adultery may be instituted as prosecutions for other crimes. The President is authorized to appoint fourteen trustees of the corporation known as the Church of Latter-Day Saints, who shall make an annual report as to its property, business affairs, &c. All laws relating to the Perpetual Emigrating Fund Company are annulled, and the Utah Legislature is forbidden to create of persons into the Territory for any purpose whatever. The Attorney-General is directed to bring suit for the dissolution of the emigrafor not more than three years.] THURSDAY'S PROCEEDINGS.

In the Senate, on Thursday, the bill to equalize the rank of graduates of the Naval Academy upon their assignment to the various corps, was read a third time and passed. [It provides that graduates of the Naval Academy assigned to the line of the navy, on the successful completion of the six years' course, shall be commissioned ensigns of the navy, and the grade of junior ensign is abolished, the persons now being junior ensigns to be commissioned ensigns.]

The Mexican pension bill was then taken up,

the question being on the adoption of the arrears of pension amendment offered by Mr. Ingalls (Kan.) to that of Mr. Van Wyck's (Neb.) embracing the provisions of the Cullom bill. Mr. Ingalls asked leave to modify his amendment so as to make October 1, 1884, the date prior to which claims must be filed in order to entitle the claimants to arrears of pension, and so as to provide that in the adjudication of claims to arrears no distinction of rank shall be made.

A discussion then arose as the propriety of adopting the amendment in its modified form. Mr. Voorhees (Dem., Ind.) called attention to the fact that if the amendment in its present shape were adopted, a statute of limitation would again be operative after October 1, 1885,

A curious article might be written on the immunity from wounds in action of some generals, and the ill-fortune of others in becoming the billet for a bullet. No commander was ever more forward in the fighting-line than Sheridan, yet he never got a scratch. Skobeloff, who many a time went at it with his own good sword, and in his white coat and on his white charger headed every charge with a recklessness that men called madness, had as complete an immunity as if he carried the charmed life that his soldiers ascribed, and was wounded fired into the air a mile away. Wellington was but once hit; the bullet that carried away his boot-heel scarce gave him a contusion. Grant was never struck; no more was Napoleon. Of Sir Neville Chamberlain, again, one of the most distinguished officers of our Indian army, the saying goes that he never went into action without receiving a wound, and the gallant old man has been fighting pretty steadily ever since the first Afghan war. Bazaine was a man to whom fortune was not stingy in the matter of wounds. At Borny there came to him the leaden reminder that he was mortal, though this time it was but a gentle hint. The fragment of a shell hit him on the left shoulder, but it had been well-spent, and because of the protection of the epaulet gave him but a contusion, from which he had pain for several days, especially when on horseback
